TigerOT Adult and Pediatric Clinical Services are provided at no charge by occupational therapy graduate students under the direct supervision of faculty members who are expert licensed clinicians.

The TigerOT Mission

- To serve those in our community who are otherwise unable to receive occupational therapy or could benefit from additional services by providing high-quality, client-centered therapy at no cost.
- To provide a safe and supervised learning environment enabling our students to provide innovative, evidence-based therapy.
- To develop partnership with families and other individuals related to the care of adults, children and their families.

Additional Services

TigerOT also provides Home Safety Assessments for individuals in our community of all ages who have identified safety concerns in the home.

If you have questions or would like to schedule an appointment or assessment, please call: (573) 884-6365
Or email: byersb@health.missouri.edu

Teaching tomorrow’s clinicians by serving today’s families.
