

DEPARTMENT OF COMMUNICATION SCIENCE AND DISORDERS
SCHOOL OF HEALTH PROFESSIONS

Dear Parents,

Thank you for your interest in the MU Robert G. Combs Language Preschool. Enclosed is an application for admission. Please return the application at your earliest convenience so that your child may be considered for the next available opening. The purpose of this letter is to explain the application process as well as to provide some information about our preschool. If you have further questions, please contact me at 573.882.8538 (preschool office) or 573.882.8408 (my department office).

The enclosed application should be completed and returned by mail to the MU Robert G. Combs Language Preschool, Department of Communication Science and Disorders, 301 Lewis Hall, University of Missouri, Columbia, MO 65211 or emailed to HullG@health.missouri.edu . Some scholarships are available through the Scottish Rite's *RiteCare* philanthropic organization or the Department of Communication Science & Disorders. Please write on your application if you would like to be considered for a scholarship. Other paperwork to complete that process can be completed if an opening in the preschool becomes available.

A Brief History and Statement of Purpose

This preschool was opened in 1999 as a joint effort between the local chapter of the Scottish Rite and the MU Department of Communication Science and Disorders. The main philanthropy of the Scottish Rite is to improve and provide services to children with speech and language difficulties. We have served 12-16 children aged 3-5 years each semester since opening. Most of these children have been diagnosed with a mild to moderate speech or language problem. Some are children speaking English as a second language and others are peer models for the group. We seek to provide an intensive, structured, language-rich environment in a small, fun preschool setting.

Who Works Here

The MU Department of Communication Science and Disorders teaches and trains students in the field of speech-language pathology. These students are required to obtain 25 observation hours and 375 clinical clock hours before graduation. Senior level and graduate students in our department are the clinicians in the MU Robert G. Combs Language Preschool. They are supervised by certified and licensed professionals throughout their training. Generally our ratio of clinicians to preschoolers is 1:2 or 1:3.

Our Program

We base each preschool week around one or two related books. These books are read at least four times during the course of the week and all daily activities relate to the books' theme. Research has shown that a balance of child-directed and teacher-directed learning opportunities is effective. Also, repetition, intensity and explicit teaching strategies are important in teaching new vocabulary and concepts. Since our daily activities (even snack time) revolve around a book theme, we know we are repeating related vocabulary many times in the course of our mornings together, working on how to understand as well as how to talk about the words and concepts integral in our week's books. Although we have been in operation for more than a decade, we have also incorporated information gained from the well-established and long-running language preschools at Kansas University and the University of Colorado at Boulder. Many preschool families also take advantage of additional speech-language therapy or occupational therapy in coordination with the preschool schedule.

Preschool Day and Costs

Toddler group meets on Tuesday/Thursday from 9am-11am. Preschool children attend on Monday/Wednesday from 9am-11am or Tuesday/Thursday from 1 pm-3 pm. Our semesters are based on the University of Missouri calendar, opening a week after Mizzou starts and closing a week before finals. This generally amounts to 12 weeks per fall and spring semesters and 6 weeks in the summer. Tuition for fall and spring is \$300 per semester and \$150 for summer. Cost for individual therapy is \$700 per semester and \$350 for summer. If you choose to seek both preschool and individual therapy services, the cost is \$850 per semester and \$425 for summer. With the generous support of the Scottish Rite and other clinic donors, scholarships are available to those who qualify.

If you are interested in individual speech-language therapy, please contact Barbara Brinkman, MU Speech & Hearing Clinic Director, at 573.882.5469.

If you are interested in occupational therapy, please contact Lea Ann Lowery, Occupational Clinic Supervisor, at 573.884.2139.

Overall Policies and General Information

Attendance is an important part of our program. Children should not attend if they are sick, however, given the dual educational nature of our preschool, it is imperative that children attend regularly for our program to run well, for the children to get the most from our language-rich environment, and for the college students to obtain the amount of training they require.

Transportation is provided to our preschool by parents, other relatives or friends. We provide a hangtag so that families are able to park in the lot closest to our building without additional cost. We are located at the corner of Rollins and Providence Roads on the west side of the University of Missouri campus in 124 Clark Hall (next to Adult Day Connection).

In closing, again thank you for your interest in our language preschool. If you have any remaining questions, do not hesitate to contact me at the above phone numbers or via e-mail (HullG@health.missouri.edu). Information about our preschool and clinic can also be accessed on the web (<http://shp.missouri.edu/csd/>).

Sincerely,

Greta
