Please clip this registration form and send it along with $70 (student rate = $20) to: Mizzou NSSLHA, 308 Lewis Hall, MU, Columbia, MO 65211 or fax to 573.884.8686. Registration will include a continental breakfast and afternoon snack break as well as all conference handouts. The last day to register is Friday, February 8th. Late registration will be considered on a space available basis.

Updates and Practical Applications
The Mizzou Chapter of the National Student Speech Language Hearing Association is proud to host our 28th Annual Update Seminar. Please join us for this multifaceted day-long seminar featuring MU Speech, Language and Hearing Sciences faculty for updates on current research and practical application of this cutting-edge information in stuttering, infant development and clinical supervision.

Stuttering in Children and Young Adults: Updated Evidence and Practice Trends
Stacy Wagovich, PhD, CCC-SLP
Assistant Professor and Chair
This two-part presentation will be an update of current fluency research informing clinical practice with children and young adults who stutter. Highlights will include contemporary ideas related to assessment and treatment and discussion of creative ways to address the challenges of this complex disorder across the lifespan.

Producing Speech for the Perceiving Child
Nicholas Smith, PhD
Assistant Professor
Language input is critical for speech and language development. Caregivers are the primary source of this input, and young children, themselves, influence the properties of this input. This presentation will review research on how caregivers adapt the acoustical and visual properties of their speech to children, and how children respond to this speech. This research will be discussed with an emphasis on bidirectional influences operating between caregivers and children, working together as a dyadic system to achieve communicative milestones.

SLP Clinical Field Educator Update
Gwen Nolan, MS, CCC-SLP
Assistant Clinical Professor
SLPs wear many hats, and one may be that of a clinical educator. ASHA requirements and expectations, best practices, and maximizing the experience for educator and student will be discussed.

University of Missouri Columbia, Department of Communication and Science Disorders is approved by the Continuing Education Board of the American Speech-Language Hearing Association (ASHA) to provide continuing education activities in speech language pathology and audiology. See course information for number of ASHA CEUs, instructional level and content area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

This course is offered for up to .60 ASHA CEUs (Intermediate level, Professional area).

Please contact Mizzou NSSLHA advisor, Dana Fritz (fritzd@health.missouri.edu or 573.884.7538) for more information or check out our Update webpage link at https://healthprofessions.missouri.edu/speech-language-and-hearing-sciences/.
### About Our Presenters

**Stacy Wagovich** is an associate professor and the chair of the Department of Speech, Language and Hearing Sciences within the School of Health Professions at the University of Missouri. Her primary research line is in the area of cognitive and linguistic factors related to childhood stuttering. Dr. Wagovich has been funded by the NIDCD as a PI and Co-I. She has over 30 publications and over 70 refereed presentations. Dr. Wagovich has served as the associate editor of the *Journal of Fluency Disorders* and the *American Journal of Speech-Language Pathology*, and she is currently the editor-in-chief of *Seminars in Speech and Language-Pediatric Section*.

**Disclosures**

Financial: Dr. Wagovich receives a salary as a faculty member of the Department of Speech, Language and Hearing Sciences, University of Missouri. She also receives an honorarium for her work as Editor of Seminars in Speech and Language – Pediatric Section.

Nonfinancial: No relevant nonfinancial relationship exists.

**Nicholas Smith** is an Assistant Professor in the Department of Speech, Language and Hearing Sciences at the University of Missouri. Originally from Canada, Dr. Smith received his PhD at the University of Toronto. Prior to coming to Mizzou, he was a staff scientist and lab director at the Boys Town National Research Hospital in Omaha, Nebraska. His NIH-funded research has examined how caregivers modify the multisensory properties of their speech to infants and children and how these changes support speech perception and parent-child interaction.

**Disclosures**

Financial: Dr. Smith receives a salary as a faculty member of the Department of Speech, Language and Hearing Sciences, University of Missouri.

Nonfinancial: No relevant nonfinancial relationship exists.

**Gwen Nolan** is an Assistant Clinical Professor, Clinical Supervisor and Outplacement Clinical Coordinator in the Department of Speech, Language and Hearing Sciences at the University of Missouri. Gwen has over 13 years of experience as a practicing speech-language pathologist having had the opportunity to work in a variety of settings including hospitals, clinics, acute care and rehabilitation. Other projects of Ms. Nolan’s include directing the nationally recognized LEAP (Language Enhancement for Adults Program) and the PVP (Parkinson Voice Program) at Mizzou.

**Disclosures**

Financial: Ms. Nolan receives a salary as a faculty member of the Department of Speech, Language and Hearing Sciences, University of Missouri.

Nonfinancial: No relevant nonfinancial relationship exists.
