The State of the School of Health Professions:

September 28, 2016
Mission:
To improve the health and quality of life of individuals and communities through excellence in teaching and learning, scholarship and discovery, health care and service.

Vision:
SHP will be a model of excellence among university programs that include our health disciplines, with international recognition as an innovative leader in research, teaching and health service delivery.

To Teach. To Serve. To Discover.
